What this standard covers

This standard specifies the geometric accuracy inspection, positioning accuracy inspection, repeated positioning accuracy inspection and working accuracy inspection of dual-spindle vertical machining centers. This standard is applicable to the accuracy inspection activities of fixed-table and rotary-table dual-spindle vertical machining centers with axis strokes up to 1000mm.

Document data

International classification (ICS): 25.040.10.

Chinese classification (CCS): J50.
