1 Foreword

JB/T 14591-2024 was issued by Ministry of Industry and Information Technology on 29 March 2024 and has been in force since 1 October 2024.

The JB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the terms and definitions of permanent magnet variable frequency self-priming constant pressure electric pumps, specifies the types and basic parameters and technical requirements, specifies the corresponding test methods, specifies the inspection rules and marking, packaging, transportation and storage. This standard applies to the manufacture of permanent magnet variable frequency self-priming constant pressure electric pumps driven by permanent magnet motors, with the conveying medium being clean water or liquids with physical and chemical properties similar to clean water.

JB/T 14591-2024 falls under ICS 23.080, in the field of fluid systems and general-purpose
