What this standard covers

This standard specifies the terms and definitions for the evaluation of green design products for membrane bioreactors, and specifies product classification, evaluation requirements, life cycle assessment methods, evaluation report preparation methods, evaluation conclusions, and document management. This standard applies to the evaluation activities of green design products for membrane bioreactors using microfiltration or ultrafiltration membrane modules as separation units.

Document data

International classification (ICS): 13.060.30.

Chinese classification (CCS): J88.

Estimated length of the Chinese original: 23,269 words.
