What this standard covers

This standard specifies the technical requirements and energy efficiency rating of pumps for sewage treatment, describes the corresponding test methods, and specifies the judgment rules and energy efficiency rating marking. This standard applies to the energy efficiency rating determination of single-stage single-suction centrifugal sewage pumps, single-stage double-suction centrifugal sewage pumps, mixed-flow sewage and sludge submersible electric pumps, and axial-flow sewage and sludge submersible electric pumps for conveying various types of sewage.

Document data

International classification (ICS): 13.060.30.

Chinese classification (CCS): J88.

Estimated length of the Chinese original: 8,859 words.
