CCS K 21

JB

**INDUSTRY STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

JB/T 14959-2025

**Minimum allowable values of the energy efficiency and energy
efficiency grades for the speed regulation system of switched
reluctance motor**

(English Translation)

Issued on: July 2, 2025

Implemented on: February 1, 2026

Issued by: Ministry of Industry and Information Technology

What this standard covers

This standard specifies the energy efficiency grades and energy efficiency limits for switched reluctance motor speed control systems, and describes the corresponding test methods. This standard applies to general-purpose switched reluctance motor speed control systems and general-purpose explosion-proof switched reluctance motor speed control systems with rated power of 0.37kW to 375kW, rated speed of 750r/min to 3000r/min, and self-ventilated continuous duty. It is applicable to the determination of energy efficiency and the classification of energy efficiency grades for these systems.

Document data

International classification (ICS): 23.140.

Chinese classification (CCS): K21.
