What this standard covers

This standard specifies the symbols, classifications, characteristics, normal operating conditions, installation conditions, structural and performance requirements for marine AC medium-voltage circuit breakers. It describes the corresponding test methods and specifies marking, documentation, packaging, transportation, and storage. This document applies to the manufacture of marine AC medium-voltage circuit breakers ranging from 3kV to 15kV, with frequencies of 50Hz, 60Hz, and 50/60Hz.

Document data

International classification (ICS): 47.020.61.

Chinese classification (CCS): U61.

Estimated length of the Chinese original: 41,467 words.
