What this standard covers

This standard specifies the technical requirements for floor grinding and polishing vacuum cleaners used in construction machinery and equipment, describes the corresponding test methods, and stipulates inspection rules, marking, accompanying documents, packaging, transportation, and storage requirements. This document applies to the manufacture of floor grinding and polishing vacuum cleaners used in conjunction with floor grinding machines and floor polishing machines, or used independently with a suction nozzle; the manufacture of other industrial vacuum cleaners should refer to this standard.

Document data

International classification (ICS): 91.22.

Chinese classification (CCS): P97.

Estimated length of the Chinese original: 11,148 words.
