1 Foreword

JB/T 15201-2025 was issued by Ministry of Industry and Information Technology on 19 August 2025 and has been in force since 1 March 2026.

The JB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the equipment types, structural components, basic parameters, and technical requirements of cold foil stamping machines. It describes the corresponding test methods and specifies inspection rules, instruction manuals, product certificates, nameplates, markings, packaging, transportation, and storage. This standard applies to the manufacture of cold foil stamping machines connected to printing lines; the manufacture of independent cold foil stamping machines should refer to this standard. This standard does not apply to digital cold foil stamping machines.

JB/T 15201-2025 falls under ICS 37.100.10, in the field of image technology.
