1 Foreword

JB/T 15259-2025 was issued by Ministry of Industry and Information Technology on 2 July 2025 and has been in force since 1 February 2026.

The JB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the type, basic parameters, dimensions, and technical requirements of YAKK series high-voltage increased-safety three-phase asynchronous motors (frame sizes 710-1120) and other motors derived from this series. It describes the corresponding test methods and specifies inspection rules, marking, packaging, and warranty requirements. This standard applies to the manufacture of YAKK series high-voltage increased-safety three-phase asynchronous motors (frame sizes 710-1120) and other motors derived from this series.

JB/T 15259-2025 falls under ICS 29.260.20, in the field of electrical engineering.

This catalogue holds 619 other JB/T standards in that field.

In this catalogue, JB/T standards carry edition years from 1967 to 2026.

3 About this standard

Sector: Mechanical & Machinery Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

MT/T 249-2019 - YBSD series flameproof mining type double speed three-phases asynchronous motor

MT/T 478-2011 - YBS series flameproof three phases asynchronous motor for conveyer

MT/T 575-2011 - YBRB Series Flameproof Three Phases Asynchronous Motor for Pump

JB/T 15252-2025 - Technical specification for TZYW series positive-pressure housing-type brushless excitation synchronous motor (12 P ~ 30 P)

JB/T 15251-2025 - Explosion-proof Three-Phase Asynchronous Motor - Explosion-proof Assembly Reliability Index Assessment Method (Laboratory Method)

JB/T 15250-2025 - Explosion-proof Three-Phase Asynchronous Motor - Reliability Index Assessment Method (Laboratory Method)

5 Classification and status

International classification (ICS): 29.260.20

Chinese Standard Classification (CCS): K 25

Prefix JB/T: recommended standard.
