## 1 Foreword

JB/T 15414-2025 was issued by Ministry of Industry and Information Technology on 17 December 2025 and has been in force since 1 July 2026.

This is a draft translation for reference among interesting stakeholders. The finalized translation (passing through draft translation, self-check, revision and verification) will be delivered upon being ordered.

The JB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

## 2 Scope Preview

This document defines the terms and definitions for automatic washing devices for engineering vehicles, specifies the technical requirements, describes the corresponding test methods, and specifies the inspection rules, marking, packaging, transportation and storage. This document is applicable to the manufacture of automatic washing devices for engineering vehicles with a rated discharge pressure of less than 8 MPa.

JB/T 15414-2025 is filed under Chinese Standard Classification J70, in the field of machinery.

This catalogue holds 16,018 other JB/T standards without an ICS number.

In this catalogue, JB/T standards carry edition years from 1967 to 2026.

## 3 About this standard

Sector: Mechanical & Machinery Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

## 4 Related standards

Standards on related subjects:

GB/T 13929-2024 - Water ring vacuum pumps and compressors - Testing method

JB/T 6879-2021 - Dimensional tolerances of flow passages in castings of centrifugal pumps

JB/T 13977-2020 - Liquefied natural gas (LNG) cryogenic submerged pumps

JB/T 15369-2025 - Accurate mixing equipmentforwindturbine blade

JB/T 15180-2025 - Water Jet Nozzle Performance Test Methods
