Foreword

JB/T 15430.2-2026 is a recommended industry standard of the People's Republic of China in the Machinery sector, approved and issued by the Ministry of Industry and Information Technology on 28 April 2026, with effect from 2 November 2026.

It is administered by the National Technical Committee for Forging and Stamping Machinery Standardization.

Classification: ICS 25.120.10; CCS J62.

1 Scope

The document is Part 2 of the series on remote operation and maintenance of forging hydraulic presses. It sets out the technical specifications for status monitoring, that is, the observation of the working condition of a hydraulic press from a remote location as part of its operation and maintenance.

Forging hydraulic press makers, suppliers of monitoring systems, forging plants and maintenance service providers use it. It is a voluntary industry standard, as the /T in its code shows. It was issued by the Ministry of Industry and Information Technology on 28 April 2026 and takes effect on 2 November 2026. It is a new standard.
