Foreword

JB/T 15441-2026 is a recommended industry standard of the People's Republic of China in the Machinery sector, approved and issued by the Ministry of Industry and Information Technology on 28 April 2026, with effect from 2 November 2026.

It is administered by the National Technical Committee for Forging and Stamping Machinery Standardization.

Classification: ICS 25.120.10; CCS J62.

1 Scope

The document covers thick blades for shearing machines, that is, the knives fitted to machines that cut steel plate. It sets out the requirements for these blades as products, so that makers and users of shearing equipment can specify and accept them on a common basis.

It is used by manufacturers of shearing machines and cutting blades, by plate processing plants that buy replacement blades, and by inspection laboratories. JB/T 15441-2026 is a voluntary industry standard (JB/T), issued by the Ministry of Industry and Information Technology on 28 April 2026 and effective from 2 November 2026. It is a new standard.
