Foreword

JB/T 15523.2-2026 is a recommended industry standard of the People's Republic of China in the Machinery sector, approved and issued by the Ministry of Industry and Information Technology on 28 April 2026, with effect from 2 November 2026.

It is administered by the National Technical Committee for Forging and Stamping Machinery Standardization.

Classification: ICS 25.120.10; CCS J62.

1 Scope

The document JB/T 15523.2-2026 is Part 2 of the series on NC die try-out hydraulic presses, the machines used to test and adjust dies before production. It sets out the technical conditions for the press as a product. Its types and basic parameters and its accuracy are dealt with in the other parts of the series.

It is intended for press builders, die manufacturers and stamping companies who purchase try-out presses, as well as test laboratories and inspectors. The standard is voluntary (code with /T). It was issued by the Ministry of Industry and Information Technology on 28 April 2026 and comes into force on 2 November 2026. The National Technical Committee for Forging and Stamping Machinery Standardization is responsible. It is a new standard and does not replace an earlier edition.
