Foreword

JB/T 15534-2026 is a recommended industry standard of the People's Republic of China in the Machinery sector, approved and issued by the Ministry of Industry and Information Technology on 28 April 2026, with effect from 2 November 2026.

It is administered by the National Technical Committee for Die and Mould Standardization.

Classification: ICS 25.120.10; CCS J46.

1 Scope

The document sets out technical specifications for the remanufacturing of forging dies. Remanufacturing means restoring worn or damaged dies to a usable condition through repair and renewal, so that they can return to service. JB/T 15534-2026 addresses this process for dies used in forging.

It is written for die remanufacturing companies, forging plants that send used dies for restoration, die designers and the quality personnel who inspect remanufactured dies. It is a voluntary standard (code with /T). The Ministry of Industry and Information Technology approved it; it was issued on 28 April 2026 and takes effect on 2 November 2026. It is a new standard.
