Foreword

JB/T 15545-2026 is a recommended industry standard of the People's Republic of China in the Machinery sector, approved and issued by the Ministry of Industry and Information Technology on 13 February 2026, with effect from 1 September 2026.

It is administered by the National Technical Committee for Building Construction Machinery and Equipment Standardization (SAC/TC 328).

Classification: ICS 91.220; CCS P97.

1 Scope

The document applies to handheld electric rebar tying machines, portable power tools used on building sites to tie reinforcing bars together. JB/T 15545-2026 belongs to the standards for building construction machinery and equipment and treats the tool as a product.

Tool manufacturers, construction contractors and rental companies that buy the machines, and test laboratories will use it. It is a voluntary standard (code with /T). The Ministry of Industry and Information Technology approved it; it was issued on 13 February 2026 and takes effect on 1 September 2026. It is a new standard.
