Foreword

JB/T 15554-2026 is a recommended industry standard of the People's Republic of China in the Machinery sector, approved and issued by the Ministry of Industry and Information Technology on 13 February 2026, with effect from 1 September 2026.

It is administered by the National Technical Committee for Printing Machinery Standardization (SAC/TC 192).

Classification: ICS 37.100.10; CCS J87.

1 Scope

The document concerns the ink-jet digital printing press for circuit boards, a machine that prints directly onto circuit boards from digital data using ink-jet heads, instead of using printing plates or screens. JB/T 15554-2026 treats the press as a product in the printing machinery field.

It is addressed to printing machinery makers, circuit board manufacturers that buy and run such presses, and laboratories or inspectors that assess them. It is a voluntary standard (code with /T). The Ministry of Industry and Information Technology approved it; it was issued on 13 February 2026 and takes effect on 1 September 2026. It is a new standard.
