Foreword

JB/T 15560-2026 is a recommended industry standard of the People's Republic of China in the Machinery sector, approved and issued by the Ministry of Industry and Information Technology on 1 June 2026, with effect from 1 December 2026.

It is administered by the National Technical Committee for Laboratory Instruments and Equipment Standardization.

Classification: ICS 27.010; CCS F01.

1 Scope

JB/T 15560-2026 gives the technical specification for drug stability testing chambers. These are laboratory chambers that hold samples of pharmaceutical products under controlled conditions so that their stability over time can be studied. The document applies to the chamber as an equipment product.

Manufacturers of laboratory equipment, pharmaceutical companies and quality control laboratories that buy and operate stability chambers, and organizations that test or inspect such equipment are the intended users. The /T in the code shows that it is a voluntary industry standard. It was issued by the Ministry of Industry and Information Technology on 1 June 2026 and takes effect on 1 December 2026. It is a new standard.
