Foreword

JB/T 15566-2026 is a recommended industry standard of the People's Republic of China in the Machinery sector, approved and issued by the Ministry of Industry and Information Technology on 1 June 2026, with effect from 1 December 2026.

It is administered by the National Technical Committee for Low-Speed Vehicle Standardization.

Classification: ICS 65.060; CCS T54.

1 Scope

JB/T 15566-2026 concerns dust suppression vehicles built on a three-wheeled chassis. These are low-speed vehicles fitted to spray or otherwise suppress dust on roads and work sites. The document treats the vehicle as a product and sets out the requirements for it and the way they are verified.

Vehicle manufacturers, body and equipment fitters, municipal and environmental sanitation operators and inspection bodies are the likely users. It is a voluntary standard issued under the Ministry of Industry and Information Technology. It was issued on 1 June 2026 and takes effect on 1 December 2026. It is a new standard.
