Foreword

JB/T 15605-2026 is a recommended industry standard of the People's Republic of China in the Machinery sector, approved and issued by the Ministry of Industry and Information Technology on 1 June 2026, with effect from 1 December 2026.

It is administered by the National Technical Committee for Agricultural Machinery Standardization.

Classification: ICS 65.060.30; CCS B91.

1 Scope

JB/T 15605-2026 deals with the monitoring and variable control system for fertilizer distributors. Such a system observes the operation of a fertilizer spreading machine while it works and adjusts the amount of fertilizer applied according to need, as used in precision agriculture. The document applies to this system as a product.

Manufacturers of fertilizer spreaders and of agricultural electronic control equipment, farms and agricultural service companies that use variable-rate application, and test or inspection bodies are the main users. It is a voluntary standard, as /T in the code indicates. The Ministry of Industry and Information Technology issued it on 1 June 2026, and it takes effect on 1 December 2026. It is a new standard.
