Foreword

JB/T 15610-2026 is a recommended industry standard of the People's Republic of China in the Machinery sector, approved and issued by the Ministry of Industry and Information Technology on 1 June 2026, with effect from 1 December 2026.

It is administered by the National Technical Committee for Copying Machinery Standardization.

Classification: ICS 37.100.20; CCS G81.

1 Scope

The document specifies white toner, the white powder used in printers and copiers that can produce white print, for example on dark or coloured media. It treats toner as a product and covers its requirements and the means of checking them.

Toner manufacturers, cartridge producers, printer and copier makers and laboratories testing consumables will use it, as will buyers who set quality terms for white toner. It is a voluntary standard approved by the Ministry of Industry and Information Technology. It was issued on 1 June 2026 and applies from 1 December 2026. It is a new standard.
