Foreword

JB/T 15627-2026 is a recommended industry standard of the People's Republic of China in the Machinery sector, approved and issued by the Ministry of Industry and Information Technology on 1 June 2026, with effect from 1 December 2026.

It is administered by the National Technical Committee for Metal-Cutting Machine Tool Standardization.

Classification: ICS 25.080.01; CCS J50.

1 Scope

JB/T 15627-2026 specifies the technical requirements for painting metal-cutting machine tools, meaning the coating applied to the machine's surfaces. It is concerned with the painting of the machine as part of its manufacture and with the requirements that apply to it.

Machine tool manufacturers, their painting and finishing departments, coating suppliers and customers who inspect delivered machines are the people who will use it. The standard is voluntary. The Ministry of Industry and Information Technology approved it. It was issued on 1 June 2026, comes into effect on 1 December 2026, and is a new standard.
