1 Scope

This standard specifies the terms and definitions of medical vortex shaker, marking, requirements, test methods, inspection rules and signs, instructions for use

Book, package, transport and storage.

This standard applies to medicinal vortex shaker (hereinafter referred to as "vibration sieve").

2 Normative references

The following documents for the application of this document is essential. For dated references, only the dated version applies to this article

Pieces. For undated references, the latest edition (including all amendments) applies to this document.

GB/T 191 Packaging transport logo signs

Mechanical and electrical safety - Mechanical electrical equipment - Part 1. General specifications

GB/T 6388 transport packaging shipping symbols

GB/T 8885 edible corn starch

GB/T 9969 Industrial Products Manual General

The Generation of GB/T 10111 Random Number and Its Application in Product Quality Sampling Inspection

GB/T 13306 signs

GB/T 13384 mechanical and electrical product packaging General technical conditions

Metallic cutting machines - Measurement of noise level of sound pressure level GB/T 16769

Industrial machinery - Electrical equipment - Protective earth continuity test code

Pharmaceutical machinery product model compilation method

3 Terms and definitions

The following terms and definitions apply to this document.

3.1 Minusmesh

Loading material through the mesh.

3.2 Screen residue plusmesh

The amount of material in the sieve did not pass.

4.1 model preparation

Revolving sieve model preparation according to the provisions of YY/T 0216-1995.
