What this standard covers

This standard specifies the basic parameters and technical requirements for walk-behind forklifts, describes the corresponding test methods, and specifies inspection rules, markings, accompanying documents, transportation, and storage. This standard applies to the manufacture of walk-behind forklifts with a rated lifting capacity not exceeding 1000 kg as defined in GB/T 6104.1, and other walk-behind stackers. Vehicles should refer to this standard for use.

Document data

International classification (ICS): 53.06.

Chinese classification (CCS): J83.

Supersedes the earlier edition JB/T 3299-2012.
