What this standard covers

This standard specifies the technical requirements for mobile compressor chassis, describes the corresponding test methods, and stipulates inspection rules, storage, and transportation. This document applies to the manufacture of mobile compressor chassis towed by motor vehicles, with a maximum design gross weight exceeding 750 kg, a design speed greater than 25 km/h but not exceeding 50 km/h, and for short-distance road travel. The manufacture of mobile compressor chassis for off-road operation is based on this standard.

Document data

International classification (ICS): 23.14.

Chinese classification (CCS): J72.

Estimated length of the Chinese original: 11,129 words.

Supersedes the earlier edition JB/T 3771-2008.
