What this standard covers

This standard specifies the general requirements, accessories and tools, safety and hygiene requirements, and processing and assembly requirements for vertical internal broaching machines. It describes the corresponding test methods and specifies the requirements for inspection items, packaging, and accompanying technical documents. This standard applies to the manufacture of vertical internal broaching machines with a rated tensile force of 25kN to 1600kN.

Document data

International classification (ICS): 25.080.30.

Chinese classification (CCS): J57.

Supersedes the earlier edition JB/T 4182.3-2006.
