What this standard covers

This standard specifies the parameters of CNC pipe bending machines. This standard applies to the manufacture of CNC spiral wound pipe bending machines for cold bending of metal pipes. This standard does not apply to top-up pipe bending machines, pipe bending production lines, or other specialized pipe bending machines.

Document data

International classification (ICS): 25.120.10.

Chinese classification (CCS): J62.

Supersedes the earlier edition JB/T 5761-1991.
