What this standard covers

This standard specifies the general requirements, accessories, tools, safety and hygiene, processing and assembly requirements for high-speed gear hobbing machines, describes the corresponding test methods, and specifies the requirements for inspection items, packaging and accompanying technical documents. This standard applies to the manufacture of high-speed gear hobbing machines with a maximum workpiece diameter of 125mm to 320mm and a spindle reciprocating stroke rate of not less than 1500 strokes/min.

Document data

International classification (ICS): 25.040.20.

Chinese classification (CCS): J56.

Supersedes the earlier edition JB/T 6606-2006.
