What this standard covers

This standard specifies the basic parameters, structural composition, and technical requirements of drop testing machines for packaging. It describes the corresponding testing methods and specifies inspection rules, marking, packaging, and accompanying documents. This standard applies to drop tests with a drop height not exceeding 2000 mm.

Document data

International classification (ICS): 17.160??19.060.

Chinese classification (CCS): N75.

Supersedes the earlier edition JB/T 7407-2008.
