What this standard covers

This standard specifies the technical requirements, test methods, inspection rules, marking, packaging, transportation and storage of diamond or cubic boron nitride abrasives. This standard applies to the manufacture of resin bond, metal bond and ceramic bond and their composite bond diamond or cubic boron nitride grinding wheels, grinding stones and grinding heads. This standard does not apply to diamond or cubic boron nitride grinding wheels, grinding stones and grinding heads for which technical specifications are otherwise specified in separate product standards.

Document data

International classification (ICS): 25.100.70.

Chinese classification (CCS): J43.

Estimated length of the Chinese original: 15,154 words.
