What this standard covers

This standard specifies the classification of CJX series AC contactors, defines their technical characteristics, normal use, installation, transportation conditions, structure, and performance requirements, and describes the corresponding test methods. This standard applies to the manufacture of CJX series AC contactors operating at 50Hz or 60Hz, with a main contact rated voltage not exceeding 1000V, for long-distance connection and disconnection of circuits.

Document data

International classification (ICS): 29.130.20.

Chinese classification (CCS): K32.

Supersedes the earlier edition JB/T 7435-2006.
