What this standard covers

This standard specifies the materials, types, markings and technical requirements for filament image quality meters, describes the corresponding testing methods, and specifies the inspection rules. This standard applies to the manufacture of filament image quality meters (including single-filament and double-filament image quality meters) for industrial X-ray testing.

Document data

International classification (ICS): 19.100.

Chinese classification (CCS): J04.

Supersedes the earlier edition JB/T 7902-2015.
