What this standard covers

This standard specifies the wheel (rail) gauge of agricultural tractors and machinery. This document applies to the manufacture of the main drive shaft of agricultural tractors and self-propelled machinery used in field operations. This document does not apply to special types of tractors, walking tractors, single-axle motorized machinery, dual-wheel drive devices, or special types of agricultural machinery.

Document data

International classification (ICS): 65.060.10.

Chinese classification (CCS): T60.

Supersedes the earlier edition JB/T 8300-1999.
