What this standard covers

This standard specifies the technical requirements for drop weight impact testing machines for non-metallic materials, describes the corresponding test methods, and specifies inspection rules, marking, packaging, transportation, storage, and accompanying documentation. This standard applies to the manufacture of drop weight impact testing machines for testing plastics and their products, and is also applicable to the testing of other non-metallic materials. The manufacturing of the falling weight impact testing machine is based on this standard.

Document data

International classification (ICS): 19.06.

Chinese classification (CCS): N72.

Supersedes the earlier edition JB/T 9389-2008.
