1 Foreword

JC/T 1001-2018 was issued by Ministry of Industry and Information Technology on 22 October 2018 and has been in force since 1 April 2019.

It replaces the earlier edition JC/T 1001-2006.

2 Scope

This standard specifies the schematic diagram, model, marking examples and basic parameters, technical requirements, test methods, inspection rules, as well as marking, packaging, transportation and storage of hot air dampers for the cement industry. This standard is applicable to the hot blast valve in the ventilation pipeline system with the allowable pressure of 0.1MPa and the applicable temperature ?300°C in the cement industry.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 7 pages

Chinese original: about 9,929 characters

Supersedes the earlier edition JC/T 1001-2006.

4 Classification and status

International classification (ICS): 91.11

Chinese Standard Classification (CCS): Q 92

Prefix JC/T: recommended standard.
