1 Foreword

JC/T 1013-2022 was issued by Ministry of Industry and Information Technology on 30 September 2022 and has been in force since 1 April 2023.

It replaces the earlier edition JC/T 1013-2006.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the type, model and basic parameters, technical requirements, test methods, inspection rules and signs, packaging, transportation and storage of impact sand making machines. This standard applies to impact sand making machines for crushing various ores or rock materials with a compressive strength not greater than 350MPa.

JC/T 1013-2022 is filed under Chinese Standard Classification Q 90, in the field of building materials.

This catalogue holds 931 other JC/T standards without an ICS number.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.
