1 Foreword

JC/T 2021-2010 was issued by Ministry of Industry and Information Technology on 22 November 2010 and has been in force since 1 March 2011.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 5 pages in English translation.

2 Scope Preview

This standard specifies the block translucent fine ceramics at room temperature (including semi- transparent fine ceramics and fine ceramics) transmittance (including linear transmittance and total transmittance) and the use of an integrating sphere spectrophotometer measurements principle, equipment, test procedures and results of calculation, specimens. This standard applies to block translucent fine ceramics (including fine ceramic and transparent translucent fine ceramic) material transmittance (including linear transmittance and total transmittance) tests.

JC/T 2021-2010 falls under ICS 81.060.30, in the field of glass and ceramics industries.

This catalogue holds 206 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.
