### What this standard covers

This standard specifies the classification, models, basic parameters, technical requirements, test methods, inspection rules, marking, packaging, transportation, and storage of automatic hydraulic presses for autoclaved bricks. This document applies to hydraulic presses used for pressure molding autoclaved brick blanks from solid mixtures containing silicon and calcium elements, such as fly ash, sand, tailings sand, steel slag, carbide sludge, recycled aggregate, and lime.

### Document data

International classification (ICS): 91.100, 91.100.25.

Chinese classification (CCS): Q30.

Supersedes the earlier edition JC/T 2034-2010.
