1 Foreword

JC/T 2068-2011 was issued by Ministry of Industry and Information Technology on 20 December 2011 and has been in force since 1 July 2012.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 7 pages in English translation.

2 Scope Preview

This standard specifies the coated glass production terminology and definitions, classification, materials, production, product testing and packaging, signs, transportation and storage. This standard applies to online magnetron sputtering and chemical vapor deposition of glass coated glass production.

JC/T 2068-2011 falls under ICS 81.040, in the field of glass and ceramics industries.

This catalogue holds 206 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Standards on related subjects:

GB/T 30020-2023 - Test method for determing defects of glass - Photoelastic scanning method

GB/T 32061-2015 - Testing method of laminated glass interlayer shear modulus

JC/T 897-2014 - Antiseptic function of antibacterial ceramic

JC/T 2071-2025 - Code of practice for insulating glass manufacturing process

JC/T 2071-2011 - Specification for insulating glass manufacture process

JC/T 2070-2011 - Specification for safety glass manufacture process. Part 1: Specification for building safety glass manufacture process

5 Classification and status

International classification (ICS): 81.040

Chinese Standard Classification (CCS): Q 30

Prefix JC/T: recommended standard.
