1 Foreword

JC/T 2071-2025 was issued by Ministry of Industry and Information Technology on 10 April 2025 and has been in force since 1 November 2025.

It replaces the earlier edition JC/T 2071-2011.

2 Scope

This standard specifies the production procedure for insulated glass, including material requirements, production control, and operational instructions for quality control and recording during the production process. It describes traceability methods such as process recording, marking, and testing. This document applies to the production of insulated glass for architectural applications; it can be used as a reference for insulated glass used in refrigeration, transportation, and other fields.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 11 pages

Chinese original: about 16,147 characters

Supersedes the earlier edition JC/T 2071-2011.

4 Classification and status

International classification (ICS): 81.04

Chinese Standard Classification (CCS): Q 30

Prefix JC/T: recommended standard.
