What this standard covers

This standard specifies the level of FGD gypsum and marking, technical requirements, test methods, inspection rules and signs, packaging, transport and storage. This standard applies to the use of limestone/lime-gypsum wet flue gas desulfurization of sulfur purification to produce calcium sulfate dihydrate ($\text{CaSO}_4 \cdot 2\text{H}_2\text{O}$) as the main component of FGD gypsum.

Document data

International classification (ICS): 91.100.10.

Chinese classification (CCS): Q62.

Estimated length of the Chinese original: 11,135 words.
