1 Foreword

JC/T 2088-2011 was issued by Ministry of Industry and Information Technology on 20 December 2011 and has been in force since 1 July 2012.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the pre-tensioned prestressed concrete hollow slab (hereinafter referred to as " pre-tensioned slab ") product classification, raw materials, construction requirements, quality requirements, test methods, inspection rules, product certification and

logo, transportation and storage. This standard applies to highways, municipal construction bridges used in pre-tensioned slab.

JC/T 2088-2011 falls under ICS 91.100.30, in the field of construction materials and building.

This catalogue holds 579 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages

Chinese original: about 23,270 characters

4 Related standards

Standards on related subjects:

TB/T 2922.5-2002 - Railway Concrete Accelerated Mortar Bar aggregate alkali reactivity test methods for

JC/T 2092-2023 - Non-prestressed steel cylinder concrete pipe

JC/T 2091-2011 - Precast concrete shaft lining

5 Classification and status

International classification (ICS): 91.100.30

Chinese Standard Classification (CCS): Q 14

Prefix JC/T: recommended standard.
