1 Foreword

JC/T 2092-2023 was issued by Ministry of Industry and Information Technology on 20 December 2023 and has been in force since 1 July 2024.

2 Scope

This standard specifies the classification, general provisions, design and manufacturing, technical requirements, test methods, inspection rules and marking, transportation and storage, and factory certificate of non-prestressed steel cylinder concrete pipes. This standard is applicable to urban water supply and drainage pipelines, industrial water pipelines, farmland irrigation, factory pipe networks, power plant supply water pipes and cooling water circulation systems, inverted siphons, pressure tunnel pipelines, pipe trenches, pipe galleries and deep soil-covered culverts and other engineering projects. Stressed steel cylinder concrete pipe.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 21 pages

Chinese original: about 32,369 characters

4 Classification and status

Chinese Standard Classification (CCS): Q 14

Prefix JC/T: recommended standard.
