1 Foreword

JC/T 2229-2014 was issued by Ministry of Industry and Information Technology on 6 May 2014 and has been in force since 1 October 2014.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 7 pages in English translation.

2 Scope Preview

This Standard specifies the construction of metal and metal composites atmospheric exposure test methods, including terminology and definitions, exposure testing ground, exposing the sample rack, sample, test procedure, the test is terminated, the test re

JC/T 2229-2014 falls under ICS 91.100, in the field of construction materials and building.

This catalogue holds 579 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 7 pages

Chinese original: about 10,136 characters

4 Related standards

Standards on related subjects:

GB/T 17748-2016 - Aluminium-plastic composite panels for curtain walls

GB/T 9780-2013 - Test method for dirt pickup resistance and stain remvoal of film of architectural coatings and paint

JG/T 169-2005 - Light weight panels for partition walls used in buildings

JC/T 2224-2014 - Wood-plastic composite cladding panels for exterior decorate

JC/T 2223-2014 - Wood-plastic composite profiles for interior decoration

JC/T 2219-2014 - Modified inorganic powder composite building decoration material

5 Classification and status

International classification (ICS): 91.100

Chinese Standard Classification (CCS): Q 18

Prefix JC/T: recommended standard.
