1 Foreword

JC/T 2280-2023 was issued by Ministry of Industry and Information Technology on 20 December 2023 and has been in force since 1 July 2024.

2 Scope

This standard specifies the classification and marking, general provisions, technical requirements, test methods, inspection rules, marking, transportation and storage, and factory certificate of drainage pipes lined with composite concrete and reinforced concrete. This standard applies to lined composite concrete and reinforced concrete drainage pipes for gravity flow pipelines such as rainwater, sewage, water diversion and farmland drainage and irrigation. It is especially applicable to lined composite concrete and reinforced concrete for sewage pipelines containing corrosive media. Drain pipe.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 31 pages

Chinese original: about 47,481 characters

4 Classification and status

International classification (ICS): 91.100.30

Chinese Standard Classification (CCS): Q 14

Prefix JC/T: recommended standard.
