1 Foreword

JC/T 2333-2015 was issued by Ministry of Industry and Information Technology on 14 July 2015.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 6 pages in English translation.

2 Scope Preview

This Standard specifies the zircon sand terms and definitions, technical requirements, test methods, inspection rules and signs, packaging, transportation and storage. This Standard applies to minerals containing zirconium and so on through the manual or mechanical physical methods enriched purified by a zirconium mineral products and chemical methods of separation and extraction of rock, ore veins zirconium mineral products.

JC/T 2333-2015 falls under ICS 81.060.10, in the field of glass and ceramics industries.

This catalogue holds 206 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 Normative references

GB/T 1480 - Metallic powders - Determination of particle size by dry sieving

GB/T 6284 - Chemical products for industrial use - General method for determination of water content - The loss of mass on drying method

GB/T 4984 - Chemical analysis of refractories containing zirconia

GB/T 11713 - Standard methods of analyzing low specific gamma radioactivity samples by semiconductor gamma spectrometers

GB 18871 - Basic standards for protection against ionizing radiation and for the safety of radiation sources

GB/T 6678 - General principles for sampling chemical products

4 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 6 pages

Chinese original: about 8,830 characters

5 Related standards

Standards on related subjects:

GB/T 4100-2015 - Ceramic tiles

JC/T 2116-2012 - Non-ceramic sanitary ware

GB/T 3810.3-2006 - Test methods of ceramic tiles -- Part 3: Determination of water absorption, apparent porosity, apparent relative density and bulk density

JC/T 2900-2025 - Air purification ceramic tiles

JC/T 2334-2015 - Ceramic carvings tiles

JC/T 2331-2015 - Antifouling agent applied to the surface of ceramic polished tile

6 Classification and status

International classification (ICS): 81.060.10

Chinese Standard Classification (CCS): Q 31

Prefix JC/T: recommended standard.
