1 Foreword

JC/T 2349-2015 was issued by Ministry of Industry and Information Technology on 14 July 2015.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 4 pages in English translation.

2 Scope Preview

This Standard specifies the technical requirements for the production of polycrystalline silicon nitride ceramic insulator, test methods, inspection rules and signs, packaging, transportation and storage. This Standard applies to the production of polycrystalline silicon nitride ceramic insulator, the electrode protection product for solar polysilicon production furnace, other applications can be implemented by reference.

JC/T 2349-2015 falls under ICS 29.035.30, in the field of electrical engineering.

This catalogue holds 3 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.
