1 Foreword

JC/T 2357-2016 was issued by Ministry of Industry and Information Technology on 1 July 2016.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies the test methods for the appearance quality, compressive strength, dry apparent density, water absorption, softening coefficient, frost resistance, carbonization performance, shrinkage performance and thermal conductivity of foam concrete products.

JC/T 2357-2016 is filed under Chinese Standard Classification Q 14, in the field of building materials.

This catalogue holds 931 other JC/T standards without an ICS number.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard
