1 Foreword

JC/T 2371-2016 was issued by Ministry of Industry and Information Technology on 11 July 2016.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 5 pages in English translation.

2 Scope Preview

This standard specifies the terms and definitions, classification and marking, requirements, test methods, inspection rules and signs, packaging, transportation and storage of composite yarns for friction materials.

JC/T 2371-2016 is filed under Chinese Standard Classification Q 61, in the field of building materials.

This catalogue holds 931 other JC/T standards without an ICS number.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.
