1 Foreword

JC/T 2393-2017 was issued by Ministry of Industry and Information Technology on 12 April 2017 and has been in force since 1 October 2017.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 7 pages in English translation.

2 Scope Preview

This standard specifies the terms and definitions of anti-UV flat glass, classification and marking, technical requirements, test methods, inspection rules and signs, packaging, transportation and storage. This standard applies to the melting process with anti-solar UV function of the flat glass. Other production of UV glass can also refer to the use.

JC/T 2393-2017 falls under ICS 81.040.30, in the field of glass and ceramics industries.

This catalogue holds 206 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard
