1 Foreword

JC/T 2410-2017 was issued by Ministry of Industry and Information Technology on 7 July 2017.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 7 pages in English translation.

2 Scope Preview

This standard specifies the classification and marking of composite gasket materials, requirements, test methods, inspection rules and signs, packaging, transportation and storage. This standard applies to composite materials made of composite non-metallic materials on both sides of metal core materials for the production of gaskets. This standard does not apply to metal foam rubber sheets.

JC/T 2410-2017 falls under ICS 23.040.80, in the field of fluid systems and general-purpose components.

This catalogue holds 1 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.
